

STRAIGHT GRID FOR POOL OVERFLOW

High quality grids to drain swimming pool overflows.

SECURITY

The new 8 mm transversal grid for curves that complies with safety regulations EN-1345-1 and EN-1345-2.

ABSORPTION

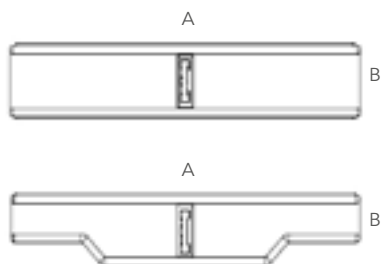

Due to the longitudinal arrangement of the bars of the grid parallel to the edge of the pool, water overflows are avoided.

RESISTANCE

Resistant to the action of UV rays and unalterable by chemical and atmospheric agents

DESIGN

Maximizes the evacuation of the pool water, while at the same time offering strong support to bathers.
