

ELECTRONIC PRESSURE CONTROLLER

HPRESS SERIES

Horizontal multi-stage self-priming pressure groups made of stainless steel with permanent magnet motor and integrated frequency converter. Efficient and intelligent pump concept for the most demanding applications in residential water supply installations.

- Pump casing and impellers made of AISI304 stainless steel, technopolymer diffusers.
- Easy operation, automatic operation with a simple LCD display.
- Complete motor protections, including dry running, motor overload, leakage and overheat protection.

CODE	MODEL	P2 (kW)	Q. MAX (m³/h)	H. MAX (m)	NOMINAL FLOW (m³/h)	PRESSURE NOMINAL(m)	Ø SUCTION (mm)
BO-HPRESS-4	HPRESS 4	0,75	5,8	50	3	31	25
BO-HPRESS-8	HPRESS 8	2,2	20	68	8	60	50
