

PERISTALTIC DOSING PUMP pH or Rx CONTROL

pH PUMP TECHNICAL CHARACTERISTICS:

- Peristaltic pump with integrated pH instrument
- Suitable for dispensing products pH + and pH – (acids/basics)
- Programming the set point on a range of 6,0 - 8,0 pH
- Semi-automatic calibration of a specific value of pH 7,01.

Included accessories:

Rx PUMP TECHNICAL CHARACTERISTICS:

- Peristaltic pump with integrated REDOX/ORP
- Suitable for dispensing Rx products
- Programming the set point on a range of 300 - 900 mV
- Semi-automatic calibration of a single value of 468 mV

COMMON CHARACTERISTICS

- pH or Redox shown on the display
- Box in PP with 30% fiberglass
- Polycarbonate front panel
- Protection IP 55
- Power supply 230 Vac
- In accordance with EC regulations

**Recommended
use for pH:
Sulfuric Acid**
