

Note: this graph corresponds to the 300mm long waterfall. For a length of 600 mm, twice the flow is required, triple for 900 mm and four times higher for 1200 mm.

WATERFALLS

WATER DESCENT WITH LED LIGHT

Water falls is one of the most beautiful ornamental features for your pool or spa.

Creating a water movement in your pool, it may be adjusted from a peaceful sheet of water falling into the pool, to a relaxing water massage for your back, adding elegance and style to your pool.

Available in 4 different models, you can enjoy different water effects and trajectories.

10 selections of pre-programmed LED lighting patterns allow you to create the best luminous water features on your hands.

1. 4 different lengths: 300 mm, 600 mm, 900 mm and 1200 mm.
2. LED strip is powered by external 12V DC, which is safe and reliable.
3. The LEDs can be operated through panel or remote control and 10 lighting patterns are available.
4. Multiple water descents can share the same controller and act at the same pace (max. 60W).

LED CONTROL BOX

The LED strip is built into the unit (instead of using fiber optics), placing the light as close to the waterfall as possible. This design creates a wonderful lightning of the water falling into the pool.

10 selections of pre-programmed LED lighting patterns allow you to create the best luminous water features on your hands:

- Input power: 220 VAC +/- 15% 50/60 Hz
- Output power: 12V DC 60W maximum.

Includes remote control.
