

CHECK VALVE

WITH TRANSPARENT BODY AND SPRING

Easy access for cleaning through the threaded cover. Thanks to its transparent cover and large chamber, any kind of congestion problem can be easily observed.

Specially designed for fibreglass pools, leaves the pool and pump clean of any dirt.

MAIN CHARACTERISTICS

- **With transparent tube:** To observe internal movement. The check valve itself is anti-corrosion, durable, and easy to install.
- **Long life:** Made of ABS and PVC, this device is robust and durable and can be used for a long time.
- **Functional use:** The check valve can prevent unpredictable damage to the pump due to liquid backflow and thus prevent recontamination of the filtration equipment.
- **Versatile:** This check valve can be used in swimming pools and spas, in the outlet pipe of the water pump.
- **Glued D 63mm Ø.**
