

BOOSTER PUMPS AND ADAPTERS

Pressure pumps for osmosis systems that provide an ideal inlet pressure for efficient membrane utilization. These highly efficient pumps provide continuous service and are also effective in recirculation applications.

- Highly resistant diaphragm pumps
- Designed for osmosis as well as other commercial water treatment equipment
- Revolutionary design
- High efficiency, low energy cost
- Longer life with long lasting performance

BOOSTER PUMP KIT

The booster pump installation kit includes accessories to provide installation in reverse osmosis systems with an inlet pressure less than 2.5 bar.

- LF-30LN Pump
- Electrical connection 24VDC/1.2A/220V
- Minimum and maximum pressure switches
- Electrical connection cables
- 1 x Tee 1/4" T x 1/4" M x 1/4" T
- 2 x Elbow 1/4" T x 3/8" M
- 1/4" Tubing
