

TECHNICAL SPECIFICATIONS

Cabinet: blown polyethylene

Bottle: made of polyester reinforced with fiberglass (GRP) and internal PE liner.

Integrated hardness mixer

Turbine for the softened water volume control

Connection 1"

Resin filler: high capacity resin for high efficiency, NSF certified

Regeneration: by average consumption (varying reserve)

By-pass optional

Pressure: 2,5 to 6 Bar

Maximum temperature: 40°C

Voltage: 230V-12V 50Hz

COMPACT WATER SOFTENER
FOR DOMESTIC USE

PLEASANTLY
SOFT
WATER

Kobe

CAN YOU IMAGINE A HOME WITHOUT LIME?

Lime is an invisible enemy that hardens your water and makes it harmful substance for your appliances and unpleasant for consumption and personal hygiene.

Kobe is the compact water softener that will eliminate this problem from your home, achieving pure and light water for all uses.

HEALTH AND WELLNESS
Helps to maintain the softness of your clothes. Besides, the shower will leave you with a fresh and pleasant sensation, softening your hair and skin.

SAVINGS
The use of softened water will suppose notable savings in your home, since you will require up to 50% less detergents and cleaning products in order to achieve the same results, besides using a low amount of salt.

PROTECTION
The softened water will prevent limescaling, thereby lengthening the life expectancy of your appliances.

CLEANING
The softened water will keep your bathroom, taps, shower and crockery looking shiny and like new.

THE SECRET IS ON THE INSIDE

-  **Technology and innovation**
Innovative design with the latest technology of the american brand **CLACK**.
-  **Complete control**
Digital programme with multiple program possibilities in order to adapt to the use of water in your home.
-  **Efficiency and savings**
Upflow unit with advanced technology in order to optimise savings of salt and water.
-  **Easy installation and maintenance**
-  **CE European conformity certificates**
